

NATASHA

ESCAPE
TO
AMERICA

SYNOPSIS

An Immigrant story, Natasha, from the 4th world country of Crapistan, is desperate to come to America and live the American Dream. Natasha, a modern day "Lucille Ball" is ordered by accident, when an unsuspecting socially inept, Internet mogul has a "Hangover 2" night. This "fish out of water" has 30 days to convince her new husband to be, she is the one, or risk getting deported, while both being chased by the Crapistani Mob. In the process Natasha comes to learn that family no matter what, is the only thing that matters.

THE STORY

An Immigrant story, akin to a female “Borat” and “Coming to America”, NATASHA: Escape to America, is the story of the desperation to come to America and live the American dream, a true story, shared by many and attained by few.

Ever since Natasha was a little girl, an orphan, growing up in the 4th world country of Crapistan, she has devoured all things American. She'll do anything to be an American...so when Eugene accidentally orders her as a Mail Order Bride, her bags are packed and she's on his Bel Air doorstep in an instant. With the zany naiveté and the hard-charging fun of a “female Borat”, Natasha almost ruins everything Eugene has worked for, as she tries to prove to her husband-to-be (and his none-too-pleased mother) that she is indeed a true American who shouldn't be returned before the warranty runs out. In this hilarious comedy, Natasha will show us the true meaning of love, family, and American excess, while both Natasha and Eugene are being chased by the Crapistani Mob.

Natasha will leave a path of hilarious destruction as she proves to Eugene and to all of us, that family, no matter how you come by it, is all that truly matters. Eugene will never be the same...which may just be exactly what he needs.

THE MARKET

High Concept Comedies have a broad appeal and potential for significant upside. Film is inherently risky as an investment. We're committed to mitigating that risk as much as possible.
